

HYDROX

Instant Rinse-Free
HAND SANITIZERS
GEL

*With Moisturizers
Aloe and Vitamin E*

Hydrox Instant Rinse-Free Antiseptic Hand Sanitizers, kill **99.9%** of pathogenic microorganisms in seconds

70% v/v Ethyl Alcohol Formula (GEL)

FDA registered product

*Ethyl alcohol's exceptional
cidal activity has led to its
recognition as the most
effective agent available for a
rinse-free hand sanitizer gel.*

- Hydrox Instant Hand Sanitizers (Gel), demonstrate **rapid kill times** on a broad range of gram negative and gram positive bacteria.

Ethyl alcohol is a **proven antiseptic** that helps break the **chain of cross contamination**.

In fact, ethyl alcohol is classified by the FDA as a monograph level I. This is the **highest level of classification granted by the FDA** and means that this type of antiseptic agent has undergone close scrutiny and vast testing to prove its effectiveness as a proven and **safe-to-use antimicrobial agent**.

TRUSTED BY HOSPITALS AND CLINICS THROUGHOUT THE WORLD

Rinse-Free formula allows use everywhere, anytime, especially when soap and water are not readily available.

Use in the **medical, dental, veterinary and dairy industries** is widespread and **growing**. Effective hand hygiene products are essential to **reducing the spread of germs** and eliminating pathogens at **home**, when you travel and at work.

*Specially formulated with
Moisturizers, Aloe and Vitamin E.*

Hydrox Instant Hand Sanitizers are friendly to your skin. Our special formula contains Moisturizers, Aloe and Vitamin E to maintain your skin moisturized and intact even with repeated use.
